Domicile country:	Ireland

Document valid as at: 23 June 2023

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type:

UCITS

Term:

This product is not subject to any fixed term.

Objectives:

The investment objective of the Fund is to provide capital growth while targeting a relatively low level of portfolio volatility of between 70% to 90% of global equity market volatility over rolling three-year periods. The Fund intends to achieve its investment objective by gaining exposure primarily to a globally diversified portfolio of equities, bonds and alternative assets.

Intended Retail Investor:

Investors who have longer term investment objectives, and who are willing to accept a higher degree of volatility in pursuit of higher returns over this period.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 12 years. Markets could develop very differently in the future.

Recommended minimum holding period: 7 years Investment 10 000 EUR			
Survival Scenarios Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.		If you exit after 1 year	If you exit after 7 years (recommended holding period)
Stress scenario	What might you get back after costs	2 050 EUR	3 230 EUR
	Average return each year	-79.49 %	- 14.89 %
Unfavourable scenario	What might you get back after costs	8 920 EUR	8 520 EUR
	Average return each year	-10.84 %	- 2.26 %
Moderate scenario	What might you get back after costs	11 010 EUR	19 360 EUR
	Average return each year	10.11 %	9.9 %
Favourable scenario	What might you get back after costs	14 270 EUR	23 060 EUR
	Average return each year	42.66 %	12.68 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 07/2021 and 06/2022.

Moderate: This type of scenario occurred for an investment between 03/2014 and 02/2021.

Favourable: This type of scenario occurred for an investment between 10/2011 and 09/2018.

WHAT HAPPENS IF IQ EQ FUND MANAGEMENT (IRELAND) LIMITED IS UNABLE TO PAY OUT?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate).

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment 10 000 EUR	If you exit after 1 year	If you exit after 7 years
Total costs	166 EUR	2 372 EUR
Annual Cost Impact*	1.66 %	1.83 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.73% before costs and 9.90% after costs

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	N/A
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	N/A
Ongoing costs		
Management fees and other administrative or operating costs	1.58% The ongoing charges are the running costs of the Fund, including distribution and marketing, but exclude transaction costs and performance fees.	161 EUR
Portfolio transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	6 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended minimum holding period: 7 years

The above mentioned period has been defined in accordance to the product characteristics. It is determined on the basis of the fund's risk and reward profile. Your ideal holding period may be different from this minimum recommended holding period. We recommend that you discuss this with your advisor. If the holding period is shorter than the recommended minimum, this may have a negative impact on the fund's risk and reward profile. You may request to redeem the units held at any moment, in accordance with the Prospectus of the fund. Any costs are shown under "Composition of costs" above.

HOW CAN I COMPLAIN?

In the case of any unexpected problems in the understanding, trading or handling of the product, please feel free to directly contact IQ-EQ at the details below.

Website: IQ-EQ (iqeq.com)
